THE NOMADS PLAYBOOK / 2026 EDITION

Your Hong Kong business. Built for anywhere.

The step-by-step setup for your company, annual filings, global money, and online sales.

01 / SLEEK
FORM → FILE → RENEW

→

02 / AIRWALLEX
RECEIVE → HOLD → SPEND

→

03 / WHOP
SELL → CONNECT → GROW

For course creators, coaches, consultants, app owners, ecommerce operators, and dropship stores.

THE COMPLETE OPERATING STACK

01–03

Three platforms. One clean setup.

Follow the route in order. Each platform solves a different problem, so you avoid the usual patchwork of workarounds.

01 / ENTITY

Sleek

Register your Hong Kong business and keep annual tax filing and registration renewal in the same plan.

02 / MONEY

Airwallex

Apply after your business is open. Receive, hold, and spend in USD, EUR, HKD, CNY, and other supported currencies.

03 / SALES

Whop

Accept online payments for expertise, digital products, ecommerce, and dropship stores.

Before you begin

- ✓ Choose your business name and intended activities.
- ✓ Keep your identity and company documents ready for provider reviews.
- ✓ Decide what you will sell first and which currencies your customers use.
- ✓ Budget for provider fees, government charges, and any managed tax services.

> Provider approval, plan coverage, rates, currencies, cards, and features depend on your business, jurisdiction, and current provider terms.

STEP 01 / YOUR FOUNDATION

Make it official with Sleek.

Start with the business entity. Your banking and payment accounts will need those company details later.

GET STARTED

Business registration

Choose the appropriate Sleek plan and complete your Hong Kong company registration.

EVERY YEAR

Annual tax filing

Keep annual filing in the same workflow. Review exactly which filings and jurisdictions your plan covers.

STAY CURRENT

Registration renewal

Keep your business registration current with renewal included in the plan described in this setup.

NEXT STEP

Keep your details ready

Save your incorporation documents, company details, and registered information for account applications.

NOMADS PARTNER OFFER

Get $500 HKD off your incorporation

REFWEAG

Enter this code during your Sleek signup. Confirm current offer eligibility and redemption terms before checkout.

STEP 02 / YOUR MONEY

Give your money a global home.

Once your business is open, apply for Airwallex to build your multi-currency money layer.

USD	EUR	HKD	CNY

Plus many other supported currencies, subject to account and regional availability.

RECEIVE

Get paid across currencies

Accept USD, Euros, Hong Kong dollars, Chinese yuan, and other supported currencies through approved account features.

HOLD

Keep currency conversion under control

Hold supported balances and choose when to convert instead of treating every customer payment as an automatic conversion.

SPEND

Get a virtual debit card

Create virtual Visa debit cards to spend directly from your Airwallex account balance online and on the go.

CONNECT

Prepare for checkout

Keep your approved account and company details ready before connecting your online sales workflow.

Airwallex accounts, currencies, cards, and features are subject to eligibility, approval, and regional terms.

STEP 03 / YOUR SALES

Turn on the checkout.

2.4%

Rates as low as 2.4%.

Actual pricing varies by transaction, payment method, region, and current Whop terms.

CUSTOMER FINANCING

Let customers pay flexibly

Offer available financing options to eligible customers and give them more ways to buy.

SELL

More than courses

Sell courses, coaching, consulting, memberships, app access, communities, ecommerce, and dropship stores.

CONNECT

Integrate your apps

Use direct API integration to connect Whop payments and access workflows to the products you build.

DEFEND

Chargeback support

Use chargeback defense and mitigation support when customer disputes happen.

VIRTUAL DEBIT CARD

Spend from your balance

Earn on Whop, then spend an available balance with a virtual debit card anywhere Visa is accepted, subject to eligibility.

Whop accounts and individual features are subject to approval, supported business models, regional availability, and current terms.

TAXES AND CHECKOUT CHOICES

Know what happens after the sale.

Turn on the features that fit your business, then check the customer total and your own responsibilities.

AUTOMATIC TAX REMITTANCE

Let Whop handle supported taxes

You can turn Whop's automatic tax remittance features on or off. When enabled, Whop calculates, collects, and remits VAT, US sales tax, and other supported taxes in covered jurisdictions.

Coverage, managed-service fees, and responsibilities depend on your settings and current Whop terms.

PROCESSING FEES

Choose who absorbs the fee

When creating a Whop invoice, you can select "Pass payment processing fees on to the customer." Availability and surcharge rules can vary by region and payment method.

Review the final customer total and local surcharge requirements before enabling this option.

COMPLIANCE

Keep your company admin current

Payment-platform tax features do not replace your company's own filing and renewal obligations. Keep your Sleek workflow and professional advice aligned with your circumstances.

> This guide is educational, not tax, legal, or financial advice. Consult a qualified professional about your business and jurisdictions.

YOUR LAUNCH CHECKLIST

From idea to open for business.

01

Start with Sleek

Choose your plan, use code **REFWEAG** for the $500 HKD incorporation offer, and complete your company registration.

02

Organize your company details

Save your registration documents and approved business information for account reviews.

03

Apply for Airwallex

After the business is open, set up supported currency accounts and create your virtual debit card if eligible.

04

Register on Whop

Create your offer, configure taxes and fees, connect your apps, and test the complete customer checkout.

Final pre-launch checks

- ✓ Confirm company details match across every provider.
- ✓ Review actual processing rates and any managed-service fees.
- ✓ Test a successful payment, a failed payment, and a refund.
- ✓ Check tax settings, customer totals, and your filing calendar.

NEED A COPILOT?

Let’s get your setup right.

Get a free consultation to talk through your Hong Kong company, multi-currency accounts, and Whop checkout.

WE’LL REVIEW

Your business model

What you sell, where your customers are, and which setup decisions matter first.

YOU’LL LEAVE WITH

A clear next step

A practical route from incorporation to global accounts and online sales.
